INTRODUCTION

In Canada, public and school libraries come under provincial or territorial jurisdiction.

The ten provinces and the two territories have a centralized agency dealing with public libraries and each administers its own act. The official name and specific functions of the public library agencies may vary from province to province, but in essence they deal with the development and coordination of public library services.

The organization of school libraries is not as formally linked to the provincial administration as that of the public libraries. However, there is in the provincial departments a consultant or school library supervisor to whom matters affecting school libraries may be referred. In three provinces and in the Yukon Territory school libraries come under the same agency that is responsible for public libraries.

The text of the Guide to Provincial Library Agencies in Canada is arranged alphabetically by province/territory. We have attempted to give for each of the provinces and territories the following information:

- the name and address of the person in charge of the agency;
- the departments responsible for the agencies;
- advisory bodies for public libraries;
- legislation dealing with public and school libraries; and
- the mandate of the agencies.

Appended to the Guide is a list of provincial ministries responsible for higher education. Since university and college libraries are administered and financed by the parent body, they are neither regulated nor coordinated by a central provincial agency.

INTRODUCTION

Les bibliothèques publiques et scolaires du Canada relèvent des provinces ou des territoires où elles se trouvent.

Les dix provinces et deux territoires ont chacun un organisme chargé des bibliothèques publiques et administrent individuellement leur propre loi à ce sujet. Le nom officiel et les fonctions particulières de chaque organisme des bibliothèques publiques peuvent varier d'une province à l'autre, mais ils sont tous essentiellement chargés de la mise au point et de la coordination des services des bibliothèques publiques.

L'organisation des bibliothèques scolaires n'est pas liée d'aussi près à l'administration provinciale que celle des bibliothèques publiques. Cependant, les ministères provinciaux ont tous un conseiller ou un superviseur des bibliothèques scolaires chargé d'étudier les questions qui les touchent. Dans trois provinces et dans les Territoires du Yukon, les bibliothèques scolaires relèvent du même organisme que les bibliothèques publiques.

Le texte du Guide des organismes provinciaux chargés des bibliothèques au Canada est présenté par ordre alphabétique de provinces et de territoires. Nous avons essayé de fournir les renseignements suivants pour chaque province et territoire:

- le nom et l'adresse du responsable de l'organisme;
- les ministères chargés des organismes;
- les groupes consultatifs chargés des bibliothèques publiques;
- les lois portant sur les bibliothèques publiques et scolaires; et
- le mandat de chaque organisme chargé de bibliothèques.

La liste des ministères provinciaux chargés des études supérieures est annexé à ce Guide. Étant donné que les bibliothèques de collège et d'université sont administrées et financées par l'organisme mère, elle ne sont ni règlementées ni coordonnées par un organisme central provincial.
